AN EDITORIAL

Come On, Victoria!

IT is unhappy news that the Community Chest drive has reached its "official" end with only four-fifths of the money raised. Citizens should appreciate, however, that the drive will go on until the \$220,000 goal is realized; to the extent that we fall short, agencies will have to trim budgets, with a resultant declinal pervices.

Surely, in a city as prosperous and happy as Victoria, the total can be achieved. By any standards, it is a modest demand. Greater Vancouver, which is only five times our size, has a goal of \$2.8 millions, or roughly 13 times our target. The imbalance is obvious.

Victoria's drive has been well organized, and is being served by a loyal band of volunteers, some 1,500 strong. The money is being collected at a cost of only 2.8 cents on the dollar, one of the most economical operations on the North American Continued.

Road Junction To Suez Blocked

JERUSALEM, Israel (UP) - An Israeli Army communique tonight announced that Israel defence forces penetrated and attacked Egyptian "suicide commando" bases near a road junction leading toward the Suez Canal.

"This operation was necessitated," the communique said, "by continuous Egyptian military attacks on citizens and on Israel land and ea communications, the purpose of which was to cause the destruction and deprive the people of Israel of the possibility of a peaceful existence."

The communique said that units of the Israel defence forces "penetrated and attacked Fedayeen (suicide commando) bases in the Kuntilla and Ras El Naquei area. and have taken up positions west of the Nahel road junction towards the Suez Canal."

Kuntilla is about seven miles inside the Egyptian border west of the Israeli Negev desert. It is a good 125 miles southwest of Jerusalem.

Ras el Naqb is also within Egyptian territory, some 10 miles northwest of the Israeli port of Eilat on the Gulf of Araba in the extreme south.

Mention of the road junction "towards the Suez Canal" was actually a reference to the highway leading from Kuntilla west across the Sinai desert to Port Suez, southern junction of the waterway which Egypt's president Gamai Abdel Nasser nationalized last July 26.

I Was Sure Trip by Car Possible

I know a Belgian who has come. It is now exactly five crossed the Sahara on a motorbike. The fact that he broke down five minutes after leaving Brussels did not deter him from continuing to his destination. I met and talked to numbers of other people during my stay in the Congo. By the time I left the Congo and returned to Belgium I was sure that I wished to make such a journey and that furthermore I had the intention of making it should the opportunity occur.

Easy Money, Easy Votes

MR. HOWE, WHOSE ENEMIES consider him the Abominable No-man of the Government, had something highly important to say before he left for Japan recently. The present high interest rate policy, he said, would be instantly relaxed if Canada's business began to soften. What goes up, he added, can go

We may be sure interest rates will be reduced and the present re-straint on credit relaxed at the earliest possible moment-as soon as the experts of the Government see any sign of reduced inflationary pressures. The real question, here and in every country, is whether the policy of restraining will be relaxed too soon.

It is always easy for governments to enforce an easy-money policy and usually popular. Hard money is always hard to maintain in politics. Inflation, in its early stages at least, is always a temptation to politicians since it puts more money into the public purse and makes everybody feel good.

But when an economy is running under forced draft and cannot possibly produce any more goods, inflation only means higher prices. That is Canada's current situation. Not only is it producing, except in a few segments of the economy, all the goods it can physically produce with the available materials, manpower and machinery but it is borrowing huge quantities of goods from the United States at the cost of a pretty

staggering trade deficit. Under these conditions some re-straint in the use of goods is inevitable and will occur, whether the Government interferes or not. Consumption will be curbed in an orderly fashion by the use of fiscal weapons like interest rates or in a disorderly fashion by drastic price increases that the public eventually will refuse to pay. We must either iron out the inflationary cycle or let it produce the familiar cycle of boom and bust. It is never pleasant for a govern-ment to tackle this old problem and

it might be good politics to let the cycle run its course. The Canadian Government has made many mistakes in the last few years but in the management of money it is showing wisdom and extraordinary courage—especially when it is assailed by oppposition parties for "over-taxing" people and, apparently, wishing to precipitate a depression.

Politicians who undertake an unpopular remedy may be accused of economic misjudgment. They cannot be accused of playing politics. And if they deliberately risk the loss of votes in an election year they must have powerful reasons for their

The Canadian Government's reasons are powerful and should be obvious to every housewife. Nevertheless, they are still widely misunderstood and the Government can blame itself for much of this misure derstanding. It has unquestionably applied the right policy in the exist-ing situation; it has failed to explain the need and the effects of this policy in a fashion which the ordinary citizen can understand.

No doubt we shall hear much more of these things once Parliament session and the Conservative Party is tempted to easy votes by demanding easy credit (without mentioning the results).

In a debate certain to be confusing the public should remember two things: First, that the value of its own money, its wages, savings and life insurance are at stake; second, that the curbs on credit will be removed as soon as possible for political if not for economic reasons. The real danger - politics being what they are—is that the Government will retreat from its policy too

The Right to Drive

DREMIER BENNETT'S SERIOUS I concern over the climbing B.C. highway death toll (214 killed to the end of September this year) is doubt-less shared by all people in the

His hope that higher safety consciousness on the part of drivers will reduce it seems more pious than practical. Campaigns have been conducted for years—a highly intensive national one in 1955 included—without persuading a sufficient number of people to be cautious on the high-

Too often drivers suffer from an inbred conviction that accidents are occurrences which happen only to other people. Even when they are conscientious, they suffer lapses and those lapses can be fatal.

The premier says that he does not want to see a police state in British Columbia and is therefore averse to excessive police interference on the highway. No rational man wants a police state. But if stiffer measures are not taken police and courts against drivers failing to show adequate caution, how is the accident total to be reduced?

It has been argued in these columns before that the most effective way of enforcing safe driving is to deprive motorists who are careless or unreliable of their driving privileges. Certainly the provincial movehicles branch has been applying that sanction heavily. Two hundred and twenty-four motorists have been suspended this month to date.

This may be a stiff penalty. But driving in a way to endanger the

lives of other people is a serious

offence. It would be comforting to believe that safety-consciousness could be instilled by educational means. Some progress might be made in that die rection. Yet even under highly favorable circumstances, education would not provide a complete answer unless it persuaded those who are not competent to meet an emergency on the highway to stop driving altogether.

It is a melancholy fact, but a fact nevertheless, that today's highpowered, high-speed automobiles travelling on improved roads are capable of going at rates too fast for the mental and physical adjustment of many of their drivers. The engine under the hood has developed beyond the equipment under the driver's hat. Speed, the authorities say, is the

greatest killer. Thoughtful men have made the tentative suggestion that the power plants which now emerge as cars are pieces of equipment which can be ely nand type of person. Has the time come, they ask, to follow the practices of aviation, where only people with par-ticular mental and physical abilities are allowed to become pilots?

As bigger, faster cars come onto highway and pile up a higher death toll, that point might be con-

In the meantime, it seems only the course of prudence to rule off the road those who are manifestly unfit to be on it in charge of what the courts frequently call a lethal in-

Stalled by a Small Minority

INCREASING PROSPERITY I among the Canadian people is having its effect on the public's While other factors enter into the situation, there can be no doubt that with economic progress comes better attention to the general health of children and adults.

But the same does not neces-sarily hold true for dental health. where prosperity means a greater addiction to sugar in the diet, the teeth must suffer. For this reason we cannot look forward to greater freedom from tooth decay merely because our standard of living becomes better.

Fluoridation of the water supply thus assumes an even greater importance as a possible remedy for far from satisfactory condition of children's teeth today. It seems incredible that so obvious and helpful a measure should be delayedit must come eventually-by the rigid opposition of a very small whose motives are rooted more in fixed mental attitudes than

are almost unanimous in their support of fluoridation the voice of the layman in opposition should be judged accordingly.

This is particularly so when the "experts" quoted by the lay opposi-tion are in almost every case proven to be either pro-fluoridation authorities who have been misquoted, or members of the health-cult and foodfaddist fringe who gain commercially from publicizing their attitude.

The statistics and carefully car-ried out tests of fluoridation are overwhelming in their endorsement of this method of strengthening the tooth enamel of children to permit it to withstand more successfully the onslaughts of decay. As the Van-couver and District Dental Society points out: "Every year that fluori-dation is postponed, many thousands of children are deprived of the dental benefits which they might otherwise

have obtained. Can any other argument be more appealing, except to those whose minds are closed through fixed prejudice? Milk and Honey and Rain

FEW PLACES in the world greet the first full rains of the season with more relish than Victoria. Of course there is the usual grumbling, the fears of an "early and long winter," the house-hold worries about rain clothes and

drains. But deep within him the real Victorian welcomes the rain. It is as much his birthright as the sunny skies which al-ternate. He not only likes it but he requires it; he not only enjoys it but he uses it. "We need a good rain," the true Victorian will say, noting dust on the foliage, rust in the grass, debris in the Tobin

curb gutters, or a pinched, unhealthy look among his neighbors. And the rain, on arrival, will remedy all these

ills and many others.

It is much more than a matter of economics; much more than a calculating estimate of the cost of watering gardens, encouraging farm crops, urging our forests to productivity or filling the hydro-electric watersheds

Dripping Critics

These, of course, are essential considerations. But they are more of a type to console the non-Victorian for the moist misery he may be suffering.

"It's good for the farmers," the stranger in our midst will mutter under his dripping hat brim. But his heart is not really in it.

Economics is not the full answer. Rain to the genuine Victorian is more than precipitation—that is for the meteorologists and economists. Rain to him

rologists and economists. Rain to him is a friendly benediction, a periodic bap-tism that fills his soul while it fills his boots, and restores the lushness of his spirit along with that of the countryside.

Few who pine for green pastures ever consider what makes them green. They invariably envision such scenes bathed in golden sunshine

But your Victorian, surveying his own favored pasture, knows that is only half the picture. He knows that for a good deal of the time the green pastures must be bathed in a much more practical element if they are to remain fresh and

Direct Benefit

Green pastures, however, are only an nent, a beneficiary, like man, of It is in a more direct sense that the Victorian soaks up benefit from

the downpour.

He enjoys the green fields, the washed air, the profusion of clean smells on the wet wind, the sharpened focus of the distant view, the glint of light on the roadside puddle and the trickling song of the rivulet. But these are added pleasures. The rain to him is essentially a more personal thing.

ers through the leaves it speaks to him of life itself. It tells of the seasons, of the never-ending drama of nature. It reminds him of the thirsty thread-roots far underground that nourish the giant trunks we see. It announces the birth of chuckling little streams high in the of chuckling little streams high in the hills and reports on their growth into sturdy pebbled creeks.

It complains tearfully of dry crar nies in the rocks where insects safely hide, and boasts of twigs swept down-stream or boulders loosened in their beds. It talks, in its charity, of the sodden mosses and the sheltered pool which next summer will slake their thirst.

And it walks with him like a friend over the shining pavement, along the jewel-strewn path or down the rutted road, with a wet hand on his shoulder and a moist breath in his ear.

All these things the Victorian knows though he will make a show of reluctance to admit it. But take him to another clime, where the sun shines bright and the dust clouds hang and the parched earth cracks at its crumbling seams; take him where the months march by with never a dron from the heavens or with never a drop from the heavens, or a trivial drizzle at best; take him away from the weather he pretends to scorn, and you will see nostalgia in its most pitiable form.

At the first opportunity he will fly escape. He will return like a bird to his birthplace, to refresh himself in the bounteous showers of Heaven and restore his shriveled spirit. Katchoo!

FOR THE FIRST time in all the long years of its brilliant art the Bolshoi Ballet of Moscow performed abroad when it danced Prokofiev's Romeo and Juliet in Covent Garden in so magnificent a manner that it received a series of stand-ing ovations, and the legendary Russian star Galina Ulanova had the glittering carriage trade audience at her satin

Not since the day of the incomparable Pavlova has any Russian ballerina so enchanted an English audience, and never before has any Russian ballet company filled not only the plush intimacy of Covent Garden, but flooded the streets outside with ballet-lovers.

The performance was unique not only it was the first time that the Bolshoi Ballet has appeared abroad but because of its strange political prelude.

Tale of the Steak

This Easterner enjoyed that feature on your Oct. 16 editorial page—"Tale of the Beefsteak"—especially what might be described as the core paragraph: "He" (the steer) "is just a hunk of mobile self-propelled beef worth twenty cents a pound so long as he remains alive. But when he is dead and carved up and shipped to your butcher store he will be far more valuable, as every housewife knows. Like most men, he is valued, appreciated and glorified only in death."

One of your financial contemporaries, down here, deals with this same picture and points out that "The average Canadian last year consumed 151½ pounds of meat—i.e., 3½ pounds up from the previous year. Pork, which had fallen off during the last few years, picked up to an average of 58 pounds last year—while heat his 75 pounds."

to an average of 58 pounds last year— while beef hit 72 pounds!" Our livestock farmers have everything

to gain, apparently, from Canada's up-surging population—moving forward bet-ter than 1,200 every twenty four hours across the year—i.e., net natural increase plus immigrants — calling for, roughly, 385,000 times 72 pounds of this "vital stuff" annually.

Yes, the steer becomes "far more valuable" the farther he gets away from the

vanch or farm-gate. I'm not sure just what share of the urban meat dollar actually gets back to the growers—but, over the whole agricultural front, accord-

ing to the experts, slightly less than 50 cents of the city housewife's "tood dollar" accrues to the farmer.

Traffic Fatality

The recent sad fatality on Richmond Road near the Veteran's Hospital reminded me very clearly of a letter I wrote to the City Council early this year requesting that a 15-mile per hour zone be established in this area and that pedestrian lanes be marked and an overhead light be installed.

I tried to explain to the City Council that most of the patients at, and the visitors to, the Veterans' Hospital are in the older age groups and a good many of them are disabled. It was my belief that these people were entitled to some protection from the fast moving traffic on Richmond Road.

protection from the fast moving traffic on Richmond Road.

Receipt of my letter was acknowledged by the city clerk, but no action was taken by the City Council in regard to the 15 mile per hour speed limit or the illuminated overhead sign.

It is a foregone conclusion that other fatalities will occur in this area unless common sense regulations are adopted and strictly enforced. The City Council are fully aware of this dangerous situation—why don't they do something about it?

Representative Last Pieces

The following excerpt is taken from an address by Mr. L. B. Pearson, Minister of External Affairs, before an audience of Ottawa Press Gallery members last Thursday.

YOU may possibly remember that an American magazine amused itself a few years ago by showing how various papers and periodicals in that country would report the confirmed news that another planet was heading straight for ours, with obliterative results certain within a day or two.

I have wondered how our own journalists and journals would deal with the news of such an event. I know, of course, what the reaction of a loyal and devoted party poli-tician would be: "I wonder how of a loyal and devoted party politician would be: "I wonder how these 265 bye-elections will go?" FROM WASHINGTON By JOSEPH and STEWART ALSOP

Mixed Motives in Hungary

THE TRAGIC and terrible blood bath In Hungary has now very publicly revealed the real inner weakness of the 'National-Communist" movement in the Soviet Union's European satellites. On the one hand, the Polish and Hungarian drive for freedom from Kremlin domination is a great popular movement, sus-tained and borne along

by a strong surge of popular opinion. Gomulka in Poland had the people squarely behind him because he had shown he also opposed Krem-lin domination; and for this same reason, hind him too, at least Joseph until he turned the tanks and aircraft on them.

But although Gomulka and Nagy have favor and even in dariger of their lives because of their nationalist tendencies, they are still Communists all the same. And the surge of popular opinion which has carried them to power is not only nationalistic.

It is not only a surge of opposition to the rule of Poland and Hungary from the Kremlin in Moscow. It also tends very strongly to become an anti-Communist surge.

It is hard to judge the events in Budapest from this distance, but American officials best qualified to an opinion are rather unanimous that Nagy was squarely caught in the above-

None at All

When he took over the Hungarian Premiership the students and workers in the Budapest streets were not merely shouting for "National Communism." They were actually shouting for no Communism, at all.

Thus the new government with Nagy at its head, strongly National-Communist as its make-up appears to be, was just as much threatened as the prior Hungarian government headed by Erno Gero and Andros Hegedus. Therefore Nagy called in the troops, actually in-cluding Soviet troops, to restore order in the capital and to insure his govern-

ment's authority.

The very fact that Nagy ordered this blood bath casts doubt on the future course his government will take. Will it, or will it not continue to live up to the National-Communist professions that

couraged.

Marshal Tito and his comrades are not recent imports, after all. They are the former leaders of their country's wartime resistance. In wartime they fought side by side with the Yugoslav

masses.

This very nativeness, this local origin? of their power was what made it pos-sible for the Yugoslav Communists to defy Stalin, it also gives Tito's govern-ment a special kind of security at home which Polish and Hungarian "National Communist" governments cannot hope enjoy.
The new Polish and Hungarian gov-

ernments are somewhat insecure, because whether of the nationalist or the Stalinstooge brand, were originally carried to power in the baggage train of the Red army. Unlike Tito, they are conspicuously imported articles.

Soviet Backing

The question must always be in their minds, as the events in Hungary have now so hideously indicated, whether they can maintain their power without the Soviet backing which was the first source

of that power.

Gomulka is clearly going to try to do so. He has already indicated he wants the Red army to leave Poland.

Despite the blood-bath, the betting still is that Imre Nagy will also make a bold. attempt.

No doubt, for this same reason, the Kremlin regarded Nagy's need for force in Budapest as a heaven-sent benefit. And for this same reason, one should wait to forecast the final shape of Soviet policy. At least until Gomulka has led his planned mission to Moscow and returned to Warsaw with

The Picture

WHEN my mother rang me up last Thursday morning, she asked if I had seen the picture on the front page of the paper the night before.

I had. It was a picture for United Nations Day, Oct. 24, and it was taken at the North Ward School.

Recause I don't work at the office I

Because I don't work at the office, I didn't know it was going to be in the paper. It came as a lovely surprise. And, as soon as the family had finished with their favorite pages, I grabbed the front page, and clipped that picture to send to my English Aunt J—in my Christmas letter.

She's a little grey-haired woman, rather dumpy, and with a bright, enquiring with a bright, enquiring mind, Often, she's asked me about Canada, and especially about our racial pattern because she once read of "the Canadian Mosaic" and the expression appealed to her.

This picture, I think, will be the perfect answer. It shows 20 children, representing 18 countries.

I like that picture. I like it very much

I like the thought of all those countries— China, Italy, Denmark, Romania, France, England, Hindustan, the Ukraine, the USA, Norway, Greece, Pakistan, Austria, Germany, the Irish Free State, Canada, Scotland and

I like the foreign sounding names which aren't foreign any more because they're the names of young Canadians. Listen to them— Wong and Parco and Peluso and Nielson. Thiebaut and Kour and Yakimovitch, Dhillon and Schwartz and Richardson and Vander-veidt. (Just read those names out aloud. Thre's music in them. Music that well might be a sort of theme song for Canada.)

I like that picture. It's a tie between us and so many other countries.

and so many other countries.

In the Victoria homes from which those children came to school, there are probably facts about Canada, and reactions to it, popped in between the purely personal news. . . And those facts and reactions will be repeated to friends and neighbors in those countries where the letters are received.

And in those countries, there are other homes where there's a special interest in Canada because someone from that family has gone there. (I know a home at the end of a long, long cobbled street in a little Belgian town. Canada is constantly thought of in that some because the daughter, Renee, married an airman and is now living somewhere near Smithers, B.C.)

And it often seems to me that friendship between countries is formed not so much by official pacts and treaties but by all these little personal ties.

Think of all the homes in other countries

little personal ties.

Think of all the homes in other countries where Canadian postage stamps are familiar and greeted with delight because they mean a letter from someone who has gone to this young, sprawling country.

I like that picture. I like to think of all the copies of it that are going to be sent to other countries. Because I'm sure that the parents of those children will be clipping it and sending it to friends and relatives at

Welfare State in action. . . . I am up here Northampton doing a radio show and rhile I was unpacking at the hotel I hapened to nick my thumb on my razor. As a ound there wasn't much to it, just a little would there wasn't much to it, just a little eut about a quarter of an inch long. But it was one of those annoying things—every time I put my hand in my pocket or touched some-thing it would catch the cut and there would be

blood all over everything.

It being Sunday, things were quiet at Northampton's Grand Hotel and I could raise nobody at the front desk who might have had a first aid kit. All I needed was a bandaid to put over the cut but when

I went out into the town I learned that no chemist Reyburn hops are open on Sunday. At Northampton's ancient New Theatre,

where we're doing the show, the stage manager told me he had no first aid gear. If anything happens to a performer he slips over to the nearby hospital.

I walked across the delightful park that surrounds All Saints' Church to the General Hospital. These the admitting officer asked. Hospital. There the admitting officer asked my name, where I came from, my age . . . and I noticed she was writing this down on

and I nouced safe was writing distance an National Health form.

"There's no need to set the wheels of the Welfare State in motion," I said. "It's just that the chemist shops are shut and I want a little bit of plaster to put on this

I went along the corridor and asked nurse but she told me she was busy and besides, there were eight people ahead of me and I'd have to wait my turn.

"But all I want is a little bit of 'plaster—" She had left me.
I found I was right outside an open door marked PLASTER ROOM and inside I could see pile upon pile of bandages, sticking plaster and dressings. A girl in hospital uniform

and dressings. A girl in hospital uniform came by and I said: "All the chemist shops are shut," I want a little bit of plaster. Could

you get me a piece out of that room?"
"Good heavens, no," she said. "I
fouch anything in there."

A man in a white jacket poked his head out of a door and I said: "All the chemist shops are shut—." He beckoned to one of the waiting patients and they disappeared

I checked the current bleeding of my thumb with my handkerchief and decided to give up the uneven struggle. But as I left the hospital I saw a driver by his ambulance. "You wouldn't have a bandaid, would you?"

"You wouldn't have a bandaid, would you?"
I asked. "All the chemist shops..."
He delved into a drawer in the ambulance and produced a dressing he felt small enough to cope with my injury. At last I'd got something out of the Welfare State, but in the church garden when I unwrapped it I found it big enough to bandage my thich.

I stuffed it into my pocket and returned to the theatre. My thumb had stopped bleeding anyway.

Russ Errors Giving Key Position to Mao? By THOMAS P. WHITNEY Associated Press News Analyst It is entirely possible that one day soon Soviet Communist leaders will wake up to find that in the international Communist movement their party is a minority of one. Recent events in Poland and Hungary are indications that the Kremlin—unless it begins to manoeuvre with greater adroitness than it recently has shown—could wind up in a position of total isolation within the Communist world. This possibility arises from the currently obvious inability of Moscow Communist chiefs to adjust to the fact that no longer William Hudson Whitelium Tour Eisenhower, reassured by the report of his doctors that he is "in excellent health" after a weekend physical examination, apparently had been confident that the news would be good. Industrials, Metals In Brisk Upsurge

Base metals and industrials continued to march briskly forward on the Toronto stock market today but western oils slipped back from their day's highs.

At New York the market made one of its best advances of the month today as industrials headed the rise. President Elsenhower's favorable medical report was credited by brokers for the market buoyancy.

AT TORONTO all industrial index stocks, with the exception

AT TORONTO all industrial index stocks, with the exception of Imperial Oil, which dipped ½ point, were either unchanged or ahead. Algoma led with a three-point climb. Stelco was up 1½ points and Ford A, Walkers and Consolidated Paper about a point. Other gains were fractional among index stocks.

International Nickel featured senior base metals with a 2½-point climb. Hudson Bay was up 1½ points; Other seniors added fractions. East Sullivan was a standout junior stock, climbing 60 cents in active trading.

Coppers, uraniums and western oils recorded sizeable gains, that outnumbered losses more than two-to-one.

NEW YORK — International Nickel was up 2¼ to lead Canadian issues on the extended to help although the dollar stocks were easier despite the success of recent issues. Leading oils were dull but Ultramar was a firm exception.

Industrials were irregular. Locomotive shares were better on news of full order books. Courtaulds were easier in textiles but British Celanese was firm on favorable press comment.

Kaffirs were depressed while coppers, after opening higher, drifted back.

Nickel was up 2½ to lead Canadian issues on the exchange while Hudson Bay Minhing was up 2 and Walker-Good erham 1½. Aluminium Ltd., \$2.10 and \$2.22.

degrees of doctor of laws to six men at its fall convocation.

Dr. Stephen Henry Roberts, principal and chancellor of the University of Sydney, Australia, was one of those honored.

He was introduced by UBC president Norman MacKenzie, as an outstanding historian. Dr. MacKenzie praised Mr. Roberts for his book, "The House That Hitler Built," published in 1937, which warned that Nazism could not achieve its aims without war.

Dr. Roberts called for a greater exchange of knowledge between Canada and Australia through students, workers, trade unionists and businessmen. He also said the two countries should play a greater role in the development of the Pacific nations, Sir Hugh, member of the British Parliament and secretary of the British Pharmaceutical Society, received his

"There are strong tendencies towards inflationary pressures in our economy today but I think these pressures can be contained. So long as they exist and go on growing higher interest rates will be necessary."

Mr. Coyne told a press conference here.

Other points:

Other points:

About an easing of the situation through voluntary curbs and in treased interest rates.

3. The governor said the Central Bank has no weapon to restrict credit except by voluntary restrictions.

Here declined to comment on whether or not parliamentary action should be invoked to impose compulsory restrictive.

Other points:

1. The governor did not look for an increase in winter unemployment due to the increased interest rate. The construction industry had shown little slackening off.

2. Consumer credit has soared and is still expanding, requiring the Central Bank to try to bring the bank rate.

Won't Hesitate to Boost Rates

The Central Bank increased its rediscount rate 10 days ago. The increase was the sixth since August, 1955, and raised the rate from 1½ per cent at that time to the present 3½ per cent.

ball players are being scouted and the question of signing up any of them will be seriously considered at the end of current Brooklyn Dodgers' tour, manager Walt Alston said today.

"It's too early to say anything now because we've played only eight games," Alston said. "But our scouts are keeping a careful tab on the promising players.

"We will give the matter of signing up any of the play-ers very careful consideration at the end of the tour."

Alston said he believed there were no restrictions in the National League against Japanese players, although he was uncertain about such legal matters as immigration laws that would permit them to play puressional baseball in the United States.

Alston said he believed there were no restricted in the United States.

Alston said he thought 20year-old right-hander Sho
Horiuchi of Yomiuri Giants,
who pitched a 5-4 victory
over the Dodgers in the first
game of the tour, offered
"plenty of promise."

He said Nishitetsu Lions'
shortstop Yasumitsu Tovoda

shortstop Yasumitsu Toyoda, 22, Pacific League batting champion this year, and 23-year-old Mainichi Orions'

outfielder Kazuhiro Yamau-chi have "caught my eye." Alston had high praise for what he described as the "tre-mendous" improvement of Japanese ball players.

Almost every school has its "sissy." In most instances they are not. But they've been branded by their chums only because they prefer music to the rough-and-tumble of the football field and dramatics and poetry to horseplay and hi-finks. They are the nonconformists in a system which demands that every boy be a "regular guy." Nonetheless, this in itself is mostly horseplay, a game no more serious than any other schoolboys' game.

Friendly Loan

He'll make it easy for you to get the Friendly Loan that suits you best. Here are important facts for you

Who can get a Niagara Friendly Loan?—Anyone with a reputation for honesty and the ability to repay.

How much can be borrowed from Niagara?—Up to \$1500; sometimes, more.

How quickly can it get money?—Sometimes in 20 minutes; within 24 hours for most loans.

Minutes; within 24 hours for most loans.

How long can I take to repay?—In the table below, there are just a few of many plans. They will give you some idea of time periods allowed for different amounts... from 4 to 24 months. And for all people who have uneven income during the year, such as farmers and schoolteachers, special payment schedules may be arranged on loans above \$500.

Are all loan charges the same?—Up to \$500 generally, yes; but remember, at Niagara, you get life insurance at no extra cost.

Above \$500, the larger the amount and the longer the time—the lower the rate. Compare . . . often you'll "buy" more money at less cost at Niagara.

Is Life Insurance on loans worthwhile?—Yes, here is

a real family peace-of-mind feature. At no extra cost to you, loans of \$1500 or less, are life-insured. Be sure you get this protection when you borrow.

Does a friend have to "back" my loan?—No, seldom do borrowers prefer an endorsed loan. And bankable security, of course is not needed. How many ways of borrowing are there?—You can use any of these four Niagara Loan plans. 1. On cars, trucks, etc.; only owner signs. 2. Husband-and-wife, on furnishings. 3. On business equipment. 4. On farm stock and equipment.

Can I have a private interview?—Yes, your interview at Niagara will be private, courteous, and friendly.

Why do people borrow money?—A few reasons are:
to consolidate a group of small debts; to reduce
large payments for car and truck repairs; to meet
emergencies; to repair or modernize homes; to enlarge
a business; for seed, stock, fertilizer for farms; and to
take advantage of low prices, when cash is paid.

OUR WEAKNESS AND SIN'-DEAN

Anglicans Criticized For 'Quiet Worldliness'

Members of the Anglican faith were criticized for their "quiet worldiness" by Dean Brian Whitlow of Christ Church Cathedral in his ser-

mon Sunday morning.

"We have provided a repository of Christ's teaching
down through the ages," the
Dean told his congregation. "and in this respect we have been steadfast and faithful.

"However, our worldliness not shared by our brethren other Protestant faiths. This is our weakness and in-deed our sin."

ROBERT MONTGOMERY'S 'ONE BRIGHT DAY' ON C-4 AT 9.30

movies, growing old has its compensations. What callow youths Clark Gable, Spencer Tracy and Myrna Loy were back in their pre-war "Test Pilot" days. Wemust have been very callow ourselves to have enjoyed them.

For one thing, you could hardly see Tracy for his long black hair. He looked like a poodle pup. How much more interesting he was last week, white-haired, lined face and all, as he climbed "The Mountain." Gable, too, remembering him in his post-war days, in such films as "The Hucksters." "The Tall Men." had more "character" than in his salad, Oscar-winning years of "It Happened One Night" and "Dancing Lady." And Myrna Loy—how much more effective she appeared on This Is Your Life recently as the accomplished matron working for humanity via the United Nations.

Then there are other veteran stars who we nightly in the days of their comparative youth, Lew Ayres, Katharine Hepburn, James Stewart, James Cagney, Edward G. Robinson, Robert Montgomery, Ginger Rogers, Fred Astaire and many more of the the world with their charm and ability.

But we like them better as they are now, which should prove something. But what, we wouldn't know.

* * * . IN ANSWER to many queries: Hal March's new quiz program, "The Most Beautiful Girls in the World," billed for last Monday night, failed to materialize because U.S. election time pre-emptions threatened interruptions during the next couple of weeks. It should appear either on Nov. 19 or Nov. 26. But just as soon as a definite date is set we'll let you know.

Leake Wins Scoring Crown

WINNIPEG (CP) — Buddy Leake, halfback-quarterback with Winnipeg Blue Bombers, captured the individual scoring championship of the Western Interprovincial Football Union and the Dave Dryburgh Memorial Trophy with 103 points—six short of the record 109 set by Calgary's Bob Shaw in

Leake, former star with the University of Oklahoma, scored 15 points in Bombers' final game Saturday against Edmonton Eskimos on two touchdowns and three converts to finish one point ahead of team-mate Bob McNamara, who had held a two-point margin going into the contest McNamara second year import from the University of Minnesota, scored two touchdowns in the finale for 12 points.

Statistics compiled by the Canadian Press show that Leake's 103 points came on 10 touchdowns, 30 converts, four field goals and one single. Mc-Namara paced the touchdown department with 17.

Ed Vereb of the British Co-lumbia Lions and Ken Carpen-ter of Saskatchewan Roughriders finished tied for third place with 89 points apiece on identi-cal records of 14 touchdowns. Riders' place—kicking guard Reggie Whitehouse followed with 74 points—tops among Canadians—on 35 converts and 13 field goals. He led the league this season in both de-

of North Dorrigo, New South Wales.

Stewart was using the bulldozer in the Moonbah state forest to knock down trees and haul them away. The bulldozer lurched on rough ground, throwing Stewart from his seat and pinning his right leg against a tree stump.

Stewart pulled a lace from his shoe to use as a tourniquet to stop the flow of blood from his badly injured leg. He then used a pencil to write his will on the inside band of his hat.

A forestry commission employee found Stewart nearly two hours after the accident. He drove Stewart to Dorrigo hospital. He is recovering.

VIENNA (AP)—The Hungarian Army High Command announced tonight that the rebels in Budapest will surrender their arms at 9 a.m. tomorrow and the withdrawal of Russian troops from the city already has started.

(From AP and UP Dispatches)

VIENNA — Soviet tanks and troops rumbled out of Budapest today.

The Russians were quitting Budapest in accordance with a truce negotiated by Premier Imre Nagy's government Sunday night.

Observers here saw the end of the fighting as a victory for the rebel forces. They have won the removal of Soviet forces, ouxled the top Russian-line Communists from the regime in which there have been three shake-ups since the surrender of rebel arms was killed and more than 60 injured in Stunday rlots end other violence against the French outside Algeria. But immediately after the announcement some Russian troops would stay in Budapest, the rebel radio at Gyoer, head quarters for insurgent forces controlling most of western Hungary, immediately went on the air with the warning:

"Revolutionary forces should not deliver their arms because no one can believe in Communist promises."

The new stand by Premier Imre Nagy's government, after earlier flat announcements that the Russians were withdrawning, indicated intense Russian pressure on his crumbling regime to reject rebel demands and regain military control.

And even though a major part of the Soviet forces moved the soldiers and soldiers and soldiers and soldiers and soldiers and soldiers and soldiers already had done so.

Come On, Victoria!

IT is unhappy news that the Community Chest drive has reached its "official" end with only four-fifths of the money raised. Citizens should appreciate, however, that the drive will go on until the \$220,000 goal is realized; to the extent that we fall short, agencies will have to trim budgets, with a resultant decline in services.

Surely, in a city as prosperous and happy as Victoria, the total can be achieved. By any standards, it is a modest demand. Greater Vancouver, which is only five times our size, has a goal of \$2.8 millions, or roughly 13 times our target. The imbalance is obvious.

Victoria's drive has been well organized, and is being served by a loyal band of volunteers, some 1,500 strong. The money is being collected at a cost of only 2.8 cents on the dollar, one of the most eco-nomical operations on the North American Con-

The house-to-house canvass, undertaken largely by women, encountered some ill-fortune weather-wise last week. Heavy rains made it difficult for the canvassers to reach every house in the allotted span.

Those who were missed can quickly remedy the situation by mailing their contribution to Chest head-quarters at Spencerhouse on Cook Street. Volunteers can swell the total by pursuing their call-backs with vigor and enthusiasm. Small businesses can act now to heart collections.

The goal is in sight. While half of Europe today is paying with its blood for the simple right to breathe free air, it would be shockingly callous of us to neglect our basic community duties in this privileged land.

Road Junction To Suez Blocked

JERUSALEM, Israel (UR) - An Israeli Army communique tonight announced that Israel defence forces penetrated and attacked Egyptian "suicide commando" bases near a road junction leading toward the Suez Canal.

"This operation was necessitated," the communique said, "by continuous Egyptian military attacks on citizens and on Israel land and sea communications, the purpose of which was to cause the destruction and deprive the people of Israel of the possibility of a peaceful existence."

The communique said that units of the Israel defence forces "penetrated and attacked Fedayeen (suicide commando) bases in the Kuntilla and Ras El Naquei area and have taken up positions west of the Nahel road junction towards the Suez Canal."

Kuntilla is about seven miles inside the Egyptian border west of the Israeli Negev desert. It is a good 125 miles southwest of Jerusalem.

Ras el Naqb is also within Egyptian territory, some 10 miles northwest of the Israeli way which Egypt's president port of Eilat on the Gulf of Araba in the extreme south.

Mention of the road junction thowards the Suez Canal" was actually a reference to the highway leading from Kuntilla west across to Sinai desert to Suez, southern junction of the water-miles northwest of the Israeli way which Egypt's president Gamal Abdel Nasser nationalized last July 26.

manded third theory. So in the agreeance to have a companion who had been with me from the of murdering a Soho shop as isstant.

But it so happened that the idea a Peugeot, one an Armstrong Siddeley, from Brussels to Delhi. There was no doubt that a saloon could do that part of the journey, but my friends soon convinced me that my chances of doing it alone in a saloon were remote. So I thereupon decided — this was not difficult—to go in a car with four.

Wheel drive.

Some people think it is rather odd that 1 should want to go alone. Perhaps it is but it has never occurred to me to take anyone with me and the idea and the journey came to me through there is alone though there is alone the dock at Mariborough Street.

Catholic Primate Freed by Poland

WARSAW (AP) — Stefan Cardinal Wysznyski made his first public appearance today since his release from house arrest. A crowd of cheering, singing Polish Catholics greeted him at his palace.

Catholics greeted him at his palace.

The cardinal, Roman Catholic Primate of Poland, walked out on the balcony above the main entrance to the palace, spread his arms and said:

"Peace be with you."

The crowd responded: "And with thy spirit."

Then the cardinal, clad in black robes and red hat, spoke to them briefly.

He called for a mature approach to Poland's problems. He asked that there should be no demonstrations and no disorders.

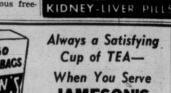

The cardinal never was put on trial.

The Picture

WHEN my mother rang me up last Thurs- and Schwartz and Richardson and Vander-W day morning, she asked if I had seen the picture on the front page of the paper the night before.

I had. It was a picture for United Nations Day, Oct. 24, and it was taken at the North

Because I don't work at the office, I didn't know it was going to be in the paper. It came as a lovely surprise. And, as soon as the family had finished with their favorite pages, I grabbed the front

page, and clipped that picture to send to my English Aunt J—in my Christmas

She's a little grey-haired woman, rather dumpy, and with a bright, enquiring mind. Often, she's asked me about Canada, and especially about our racial pattern because she once read of "the Canadian

In the Victoria homes from which those children came to school, there are probably facts about Canada, and reactions to it, popped in between the purely personal news. . . And those facts and reactions will be repeated to friends and neighbors in those countries where the letters are received.

And in those countries, there are other homes where there's a special interest in Canada because someone from that family has gone there. Welfare State in Action

NORTHAMPTON-I have now seen the Welfare State in action. . . . I am up here in Northampton doing a radio show and while I was unpacking at the hotel I happened to nick my thumb on my razor. As a ound there wasn't much to it, just a little cut about a quarter of an inch long. But it

was one of those annoying things—every time I put my hand in my pocket or touched some-thing it would catch the cut and there would be

blood all over everything. It being Sunday, things were quiet at Northampton's Grand Hotel and I could raise nobody at the front desk who might have had a first aid kit. All I needed was a bandaid to put over the cut but when I went out into the town I learned that no chemist

I walked across the delightful park that surrounds All Saints' Church to the General Henrical. There the admitting office and the surrounds are the admitting of the saints.

There the admitting officer asked name, where I came from, my age nd I noticed she was writing this down on National Health form.

"There's no need to set the wheels of the Welfare State in motion," I said. "It's just that the chemist shops are shut and I want a little bit of plaster to put on this cut."

d.—When was the first census taken in Canada?—T.W.L.

A.— Censustaking in the territory which is now Canada is much older than many citizens imagine. Historically, the census in Canada is unique in that it probably antedates any other national census in the modern sense of the term. In the year 1696, under the immediate direction of Talon, the great Intendant, who himself acted as one of the enumerators, a census was taken of the inhabitants of New France with the view to obtaining a purview of their numbers by families, sex, age, martial condition and occupations. It was nearly a century later that any attempt in a similar spirit of enquiry was made in Europe.

Leake Wins Scoring Crown

WINNIPEG (CP) - Buddy Leake, halfback-quarterback with Winnipeg Blue Bombers, captured the individual scoring championship of the Western Interprovincial Football Union and the Daye Dryburgh Memorial Trophy with 103 points
—six short of the record 109
set by Calgary's Bob Shaw in

Leake, former star with the University of Oklahoma, scored 15 points in Bombers' final game Saturday against Edmonton Eskimos on two touch-downs and three converts to finish one point ahead of team-mate Bob McNamara, who had held a two-point margin going into the contest. McNamara, second-year import from the University of Minnesota, scored two touchdowns in the finale for 12 points.

Statistics compiled by the Canadian Press show that Leake's 103 points came on 10 touchdowns, 30 converts, four field goals and one single. Mc-Namara paced the touchdown department with 17. Ed Vereb of the British Co-

lumbia Lions and Ken Carpenter of Saskatchewan Roughriders finished tied for third place with 89 points apiece on identi-cal records of 14 touchdowns. Riders' place-kicking guard Reggie Whitehouse followed with 74 points—tops among

Canadians on 35 converts and 13 field goals. He led the league this season in both departments.

Jackie Parker, brilliant triplethreat quarterback with Edmonton Eskimos, finished sixth with 66 points, followed by Riders' Larry Isbell with 55. Isbell's 15 points, followed by Riders' Larry Isbell with 55. bell's 19 singles was tops in

COOS BAY, Ore. (UP)—The czar of semi-pro baseball predicted today the professional World Series will in a few years become world wide in fact as well as name — providing the game continues to develop as it has outside the United States.

Ray Dumont, president of the National Baseball Congress, said Asian and South American teams actually are improving faster than their American counterparts.

Even the European squads, while nowhere as good as teams from Japan and Canada, have improved remarkably during the past three or four years, said Dumont.

Dumont illustrated his point with the drubbing the touring a push-button sets a maze of operations going. The triangle roof with the played in Japan.

He said that in 1950 and 1952 the United States semi-proving from Fort Wayne, Ind., met and easily defeated the Japanese champions. But this year, in the Global World Series held in Milwaukee, the Japanese team handed Fort Wayne a 6-3 loss, its only defeat of the tournament.

Though the American club went on to win the series, said tumont, clubs from Hawaii, Japan, Mexico, Canada, Columbia and Puerto Rico showed

Guilty Plea in Cayuga Theft

Robert Thomas Semple, of Port Arthur, Ont., 21-year-old former crew member of HMCS Cayuga, pleaded guilty in Esquimalt police court today to the theft of \$14,522 from the vessel in April, 1955.

He was remanded, with William James Buchanan, 24, of Sault Ste. Marie, Ont., who previously pleaded guilty to being an accessory after the fact, to Monday for sentencing. Semple admitted assisting Francis J. Cassidy, 24, in taking the money from an open safe in the supply master's cabin. Cassidy pleaded guilty last month and was sentenced to 18 months' imprisonment.

Russ Troops Quit Hungary

VIENNA (AP)—The Hungarian Army High Command annunced tonight that the rebels in Budapest will surrender their arms at 9 a.m. tomorrow and the withdrawal of Rus-sian troops from the city already has started.

(From AP and UP Dispatches)

VIENNA - Soviet tanks and troops rumbled out of Budapest today.

The Russians were quitting Budapest in accordance with a truce negotiated by Premier Imre Nagy's government Sunday night.

The Russians were quitting ported that Interior Minister Ferenc Kuennich had dissolved the Communist secret police. Kuennich announced that secret police guilty of torture and oppression would be pun-

Imre Nagy's government Sunday night.

Observers here saw the end of the fighting as a victory for the rebel forces. They have won the removal of Soviet forces, ousted the top Russian-line Communists from the regime in which there have been three shake-ups since the struggle began last Tuesday, and won promises of a more democratic form of government.

And even though a major part of the Soviet forces moved out of Budapest Sunday night and early this morning, they still were not far away.

Budapest radio also announced that all Hungarian soldiers had been authorized to remove the Soviet star from their uniforms and to replace it with the ancient Kossuth shield of Hungary.

That order was too latemost of the soldiers already had done so.

Nagy's party newspaper, Szabad Nep, said the revolution was a "full victory" for the Hungarian people.

JERUSALEM (AP)—The Israeli Army drove across the Egyptian border toward the Suez Canal tonight and appeared to have gone at least 75 miles into Egyptian territory. The two-pronged Israeli military authorities.

The announcement said units attacked across the border near the Egyptian town of Kuntilla, about 40 miles north of the Gulf of Aqaba, and at Ras el Naaeb, about 10 miles north of Aqaba and took up positions at Nahel road junction.

This junction is about 75 miles across the Sinal Peninsula toward Suez.

The military move came just the curtain on mobilization that put the country on a war footing.

AN EDITORIAL

Come On, Victoria!

IT is unhappy news that the Community Chest drive has reached its "official" end with only four-fifths of the money raised. Citizens should appreciate, however, that the drive will go on until the \$220,000 goal is realized; to the extent that we fall short, agencies will have to trim budgets, with a resultant decline in services.

Surely, in a city as prosperous and happy as Victoria, the total can be achieved. By any standards, it is a modest demand. Greater Vancouver, which is only five times our size, has a goal of \$2.8 millions, or roughly 13 times our target. The imbalance is obvious.

Victoria's drive has been well organized, and is being served by a loyal band of volunteers, some 1,500 strong. The money is being collected at a cost of only 2.8 cents on the dollar, one of the most economical operations on the North American Continued.

The house-to-house canvass, undertaken largely by women, encountered some ill-fortune weather-wise last week. Heavy rains made it difficult for the canvassers to reach every house in the allotted span.

Those who were missed can quickly remedy the situation by mailing their contribution to Chest head-quarters at Spencerhouse on Cook Street. Volunteers can swell the total by pursuing their call-backs with vigor and enthusiasm. Small businesses can act now to boost collections.

The goal is in sight. While half of Europe today is paying with its blood for the simple right to breathe free air, it would be shockingly callous of us to neglect our basic community duties in this privileged land.

We must not fail. Please sit down now and write out your cheque.

A simple, but victorious three word headline in the current issue of Ubyssey, the University of British Columbia student publication, hails the latest feat in the history of endurance swims.

In the paper's largest type, the headline reads: "SHE MADE IT." Photographs show a milling crowd of hundreds of students greeting victorious Carol Gregory, Canada's swimming honeybun, after she conquered the chilly waters of the campus lilypond in a record 3 minutes, 37 seconds. "Honeybun," after intensive training and several thousand words in print, thus became the first to conquer the lilypond. Her effort was sponsored by the Ubyssey and the Pep Club to publicize UBC's Homecorning, Nov. 3. As a spoof, it was one of the best in the humor-conscious career of the campus publication, and was the PTA.
